

SoftChalk Lesson Builder 5 Workshop

Objectives:

During this session participants will:

- become familiar with the importance of chunking content to reduce cognitive overload
- become familiar with the ways style-sheets can improve the user experience
- download and install Softchalk
- learn where to get help
- use the Softchalk product to create a sample instructional unit with multiple pages, a sidebar, and a quiz
- upload their sample instructional unit to Blackboard and un-package it for student use
