

WIMBA WORKSHOP

Wimba is a powerful tool that allows you to balance the asynchronous aspect of your online course with the benefits of real-time interaction. However, solid pedagogical and practical training is essential so you are fully prepared the first day of class. This training will cover the basics of the Wimba Live Classroom and will give you some simple strategies to maximize the ways you can foster engagement in Wimba. You will have some hands-on practice with the tool and have the opportunity to participate as both a student and a facilitator.

Objectives:

Upon completion of this workshop, you will be able to:

- Identify three best practices of delivering synchronous presentations
- Upload a PowerPoint to Wimba
- Archive a Wimba session
- Display content in Wimba
- Share applications in Wimba
- Give feedback to students using the facilitator tools in Wimba
